Landscape and Urban Planning, 27 (1993) 270–271
Elsevier Science Publishers B.V., Amsterdam

Author Index

Andorka, R.
Rural–urban differences in income level and in living conditions in Hungary 217
Baligar, V.C., *see* Bona, L. et al.
Bona, L., Wright, R.J., Baligar, V.C. and Matuz, J.
Screening wheat and other small grains for acid soil tolerance 175
Breber, P.
The misguided policy of draining estuarine wetlands for agriculture: the case of Goro, Po Delta, Italy 1
Csányi, S.
A basis for sustainable wise use of game in Hungary: defining management regions 199
Csorba, P., *see* Kerényi, A. et al.
Fedorowick, J.M.
A landscape restoration framework for wildlife and agriculture in the rural landscape 7
Füleky, Gy. and Major, I.
Changes in the landscape during the last 200 years in the region of the Zala Valley and effect on the economic activity of the area 265
González Jácome, A.
Management of land, water and vegetation in traditional agro-ecosystems in Central Mexico 141
Groeneveld, R.M.W., *see* Lotz, L.A.P. et al.
Hargitai, L.
The role of organic matter content and humus quality in the maintenance of soil fertility and in environmental protection 161
Harrach, T., *see* Peter, M. et al.
Hernández, A.J., Pastor, J., Jiménez, C. and Sánchez, A.
Cultural contributions as a complement to economic incentives for people involved in sustainable development projects in rural areas 231
Hetsen, H.
Spatial conditions for a sustainable agriculture: regional differentiation in the Netherlands 131
Hidding, M.C.
In search of new concepts of sustainable development of rural areas in the Netherlands 259
Illés, Cs.B., *see* Szakál, F. et al.
Jaarsma, C.F. and Van Lier, H.N.
Fossil energy and rural reconstruction: potential for sustainable development 123
Jiménez, C., *see* Hernández, A.J. et al.
Jurgens, C.R.
Strategic planning for sustainable rural development 253
Kádár, F., *see* Kiss, J. et al.
Kent, R.L.
Determining scenic quality along highways: a cognitive approach 29
Kerényi, A. and Csorba, P.
Investigations of air and groundwater pollution of the rural environment 97
Keresztessy, K.
Faunistical research on Hungarian protected fish species 115
Kiss, J., Kádár, F., Kozma, E. and Tóth, I.
Importance of various habitats in agricultural landscape related to integrated pest management: a preliminary study 191
Korobova, E.M. and Linnik, V.G.
Geochemical landscape strategy in monitoring the areas contaminated by the Chernobyl radionuclides 91
Kozma, E., *see* Kiss, J. et al.
Linnik, V.G., *see* Korobova, E.M. et al.
Lotz, L.A.P., Groeneveld, R.M.W. and Schnieders, B.J.
Evaluation of the population dynamics of annual weeds to test integrated weed management at a farming system level 185
Major, I., *see* Füleky, Gy. et al.
Mansvelt, J.D.van and Mulder, J.A.
European features for sustainable development: a contribution to the dialogue 67
Matuz, J., *see* Bona, L. et al.
Moonen, C.P.M.
Regional environmental and income effects of regulatory levies on nitrate surpluses of dairy holdings 105
Mugavin, D.
Wilpena Station, Flinders Ranges National Park: imperatives and indicators from the biophysical and cultural environment 19
Mulder, J.A., *see* Mansvelt, J.D. van et al.
Pastor, J., *see* Hernández, A.J. et al.
Pepo, P., *see* Pepo, P. et al.
Pepo, P. and Pepo, P.
Biological background of sustainable maize (*Zea mays* L.) production 179
Peter, M. and Harrach, T.
Environmentally friendly land use according to site conditions on a watershed in Hesse, Germany 151
Sánchez, A., *see* Hernández, A.J. et al.
Schnieders, B.J., *see* Lotz, L.A.P. et al.
Somogyvari, V.
Red deer as a farm animal 207
Szabó, L. and Tóth-Surányi, K.
Application of environmental protection capacity (EPC_G) value of soil in agricultural land use 169

Szakács, S.
Historical influences and changing systems in Hungarian agriculture 213
Szakál, F. and Illés, Cs.B.
Problems and prospects of redirecting Hungarian agriculture towards sustainable development..... 223
Tóth, I., *see* Kiss, J. et al.
Tóth-Surányi, K., *see* Szabó, L. et al.
Vajdovich-Visy, E.
Changing context — the need for a new planning paradigm 249
Van Lier, H.N., *see* Jaarsma, C.F. et al.
Werner, R.
Ecologically and economically efficient and sustainable use of agricultural landscapes..... 237
Wright, R.J., *see* Bona, L. et al.
